Toilet Seats**  
2017  
COLLECTION

**NO MORE**

**MOVEMENT**

# NO MORE MOVEMENT

Collapsible supports hold the hinges away from the pan while you align the seat. Once pressure is applied, pads beneath the hinges grip the toilet pan so there is “no more movement”.

## EASY INSTALLATION

Watch the video at [www.croydex.com](http://www.croydex.com)

### PEEL

Assemble the hinge with the bolt in place and peel off the protective film from the grip pad.

### ALIGN

Align the hinges to the toilet pan and push hinges in place.

### FIX

Slide the nut to the highest position and twist to lock the seat in place.

Protects against:  
E-Coli      Odours  
Listeria      Staining  
MRSA      Salmonella

Easy to remove system allows for seat to be completely removed from the pan for easy cleaning.

Slowly and quietly closes the toilet seat eliminating slamming and trapped fingers, especially where small children have access.
